Matthew George, Birmingham/Frankfurt

Increasing speaking in classrooms

on Friday, 28.9.2012, 15:00 - 18:00h

at International School of Bremen,

Badgasteiner Straße 1 (H Linie 6, Klagenfurter Str.)

How many minutes does an average pupil spend speaking English in a lesson? For how long does the teacher talk?

In order to increase pupils' speaking time teachers need certain techniques which encourage the pupils to speak in the target language. Not only techniques but also instruments to give to the pupils to help them use the target language in simulated speaking situations.

In this workshop different techniques will be presented and tried out. The emphasis will be on real language and tasks which teachers can use themselves without intensive preparation.

(Unverbindliche) Anmeldung:
